

Welcome

to where patients come first

We're doctors. But we're also sons, fathers and husbands. Each day, we keep this in mind as we see our valued patients. These various roles keep us connected to our mission: we strive to improve your health and happiness through quality medical care.

Continuing a Tradition of Leading-Edge Care
One Patient at a Time

Superior

care for more than 50 years

Wilmington Surgical Associates proudly rises above expectations in today's challenging healthcare marketplace. We take time with our patients. **We listen. We advise. We support.** More than medicine, we offer meaningful patient-doctor relationships that serve to **restore, comfort and encourage.**

Exceptional services to meet patient needs

Whatever your need, we provide state-of-the-art procedures across the surgical spectrum. Our board-certified and fellowship-trained physicians deliver superior care and personal attention to each and every patient. From laparoscopic and vascular procedures to acid reflux and cancer surgeries, you can count on the experienced team of Wilmington Surgical Associates.
